

Rohan Magar

Georai, Beed, MH | magarohan8@gmail.com | 8308822538 | [Linkedin](#) | [Github](#)

Computer Science postgraduate with knowledge of software development, full-stack web technologies, machine learning, and database systems. Skilled in Python, JavaScript, React, Django, Express, MySQL, TensorFlow, and Scikit-learn. Experienced in developing secure web applications, performing data analysis, and building AI-driven solutions. Strong analytical, problem-solving, and teamwork abilities with a passion for learning emerging technologies and contributing to impactful projects.

Education

Department of CS & IT, Dr. BAMU, Chh Sambhajinagar | MSc in Computer Science Sept 2024 – May 2026

- GPA: 7.50/10.0

R.B Attal College, Georai | BSc In Computer Science Sept 2020 – May 2024

- GPA: 6.50/10.0

Experience

Software Developer (Self-employed) | Manikchand Pahade Law College, Chh Sambhajinagar Jan 2025 [Latter](#)

- Full-Stack System:** Built an Attendance Management System using **React** and **Django REST Framework** to automate student record tracking.
- Authentication:** Integrated **JWT-based secure login** with role-based access control for Admins, Faculty, and Students.
- Data Management:** Designed a normalized **PostgreSQL/MySQL** schema and implemented data export features for Excel and PDF formats.

Projects

Hybrid RF and LSTM-Based Intrusion Detection System | Python, TensorFlow, Scikit-learn Jan 2026 [Paper](#)

- Designed and implemented a hybrid cybersecurity model that combines **Random Forest** for feature-level relationships and **LSTM** for temporal dynamics.
- Processed the **CICIDS2017 dataset** using a detailed pipeline for data cleaning, feature selection, and class imbalance correction via **SMOTE**.
- Achieved a documented accuracy of **99.90%** and an ROC-AUC of **0.99993**, significantly reducing false negatives in attack detection.
- Publication:** *International Journal of Computer Science Engineering Techniques (IJCSE)*, 2026.

Data Analysis & Visualization | Excel & R Programming. Dec 2024 [GitHub](#)

- Worked with real-world datasets to clean, manipulate, and analyze data using **Excel** and **R programming**.
- Visualized key insights using **R's ggplot2** library to create informative charts (e.g., bar plots, scatter plots) for better data interpretation.
- Developed summary reports with key findings, presenting data-driven recommendations.
- Used Excel as a helping tool and as a complementary tool while analysis

Technical Skills

- Languages:** Python, JavaScript, C/C++, R Programming, MySQL.
- Frameworks:** React, Django, Express, Django REST Framework, Tailwind CSS.
- Cloud/Tools:** Git, GitHub, MongoDB, PostgreSQL. WebSocket, JWT, SMOTE
